

NEWS FLASH!

South Bay Press is an approved vendor of tamper resistant prescriptions

The Washington State Board of Pharmacy has approved South Bay Press, Inc. as a vendor of tamper resistant prescriptions. This means South Bay Press, Inc. is authorized to print prescription pads meeting the requirements of the new tamper resistant prescription law that goes into effect July 1, 2010.

At that time pharmacists may no longer fill a prescription unless it is written on approved tamper resistant prescription forms.

According to Renee Buell, CEO of South Bay Press, Inc. “Not only does South Bay Press print prescription forms, but we can also meet all your other printing needs.”
